Mena.a.saleh.2001@gmail.com

Skills

Proficient: HTML5, CSS 3.0, JavaScript, Bootstrap, SQL, C#

Moderate: ASP.Net, NodeJS, AngularJS

Projects

Dynamic UI Design <https://mena-ibrahim.github.io/Responsive-Landing-Page/>

(Jul. 2022 – Aug. 2022)

- Added JavaScript to an already designed page to make it responsive and interactive with user actions.
- Added the necessary functionality to allow for dynamically updating the page with new sections without rewriting code.

Website Design <https://mena-ibrahim.github.io/Mena-s-Italian-WebSite-Design/>

(Jul. 2021- Aug. 2021)

- Sketched a design mockup for the preliminary design of a restaurant site.
- Implemented the design using mainly HTML, CSS, and some JavaScript with an emphasis on responsiveness.

NodeJS Server-Side <https://github.com/Mena-Ibrahim/Weather-APP-Journal>

(Jul. 2021- Aug. 2021)

- Fetched data from the Open Weather Map Web API.
- Stored and received data from the server using respective get and post routes.
- Displayed dynamic data on UI elements.

Education

Front-End Developer Nanodegree, Udacity

Jul. 2022 – Aug. 2022

MSCD, CLS learning solutions

Jul. 2021 – Jan. 2022

B.A., Computer Science, ASU (CGPA 3.9/4)

Aug. 2020 – June 2024

Experience

Project Leader

Feb. 2022 – June 2022

FCIS, Cairo, Egypt

- Assigned roles to team members in the DS course in college during a whole semester for a fully functioning blood bank application.
- Managed the basic framework in the application and chose the necessary data structures to use and how data should be stored.
- Lead the UI design process of the application and content management as well as implementing some business logic.
- Achieved the highest grading criteria and ranked 2nd in the top projects list.
